Products

- **Polycom SoundStation IP 7000**
- **Polycom SoundStation IP 6000**
- **Polycom SoundStation IP 5000**

Product Overview

Polycom's family of SoundStation® IP conference phones leverage the capabilities of SIP-based VoIP networks to deliver breakthrough voice quality and advanced features that make conference calls more efficient and productive.

The SoundStation IP 6000 and SoundStation IP 7000 feature Polycom HD Voice™ technology, boosting productivity and reducing listener fatigue by turning ordinary conference calls into crystal-clear interactive conversations. This newest generation of conference phones captures both the deeper lows and higher frequencies of the human voice, resulting in conference calls that sound as natural as being there. Plus, for all conference calls, these products deliver advanced audio performance that far exceeds previous generations of conference phones. From full-duplex technology that eliminates distracting drop-outs to the latest echo cancellation advancements, only Polycom can deliver a conference phone experience with no compromises.

Solution Overview

SoundStation IP 7000

The SoundStation IP 7000 is a breakthrough conference phone that delivers outstanding performance and a robust feature set for SIP-based VoIP platforms. It is the most advanced conference phone ever developed, and is ideal for executive offices, conference rooms, and board rooms.

The SoundStation IP 7000 features Polycom HD Voice technology, boosting productivity and reducing listener fatigue by turning ordinary conference calls into crystal-clear interactive conversations. It delivers high-fidelity audio from 160 Hz to 22 kHz, capturing both the deeper lows and higher frequencies of the human voice for conference calls that sound as natural as being there.

The SoundStation IP 7000 is the most flexible and expandable conference phone ever developed. Connect two units together for increased loudness and microphone pickup, as well as multiple call control interfaces in the conference room. Connect up to two optional expansion microphones to a single phone to ensure close proximity for everyone in the room. In addition, you can connect the SoundStation IP 7000 to the Polycom HDX high-definition video conferencing system for a complete, integrated voice and video conferencing solution.

SoundStation IP 6000

The SoundStation IP 6000 is ideal for small to midsize meeting rooms holding up to 8 participants. It features Polycom HD Voice technology, with high-fidelity audio from 220 Hz to 14 kHz. 12-foot microphone pickup is combined with Automatic Gain Control for performance far beyond older SoundStation IP conference phones. Plus, you can add up to two optional expansion microphones for even greater coverage.

The SoundStation IP 6000 features integrated Power over Ethernet (PoE) to simplify setup, with an AC power kit available for non-PoE environments. Plus, the SoundStation IP 6000 includes a high-resolution backlit display for vital call information and multi-language support.

SoundStation IP 5000

The Polycom® SoundStation® IP 5000 conference phone delivers remarkably clear conference calls for small conference rooms and executive offices. It features Polycom HD Voice™ technology, broad SIP interoperability, and a modern design that is ideal for smaller rooms—all at an affordable price.

The SoundStation IP 5000 conference phone delivers advanced audio performance that is designed for executive offices and smaller conference rooms with up to 6 participants. From full-duplex technology that eliminates distracting drop-outs to the latest echo cancellation advancements, only Polycom can deliver a conference phone experience with no compromises.

Key SoundStation IP Conference Phone Features

- Polycom HD Voice for life-like clarity and intelligibility
- Polycom's patented Acoustic Clarity Technology, delivering the best conference phone audio performance with no compromises
- Expansive microphone pickup range (20-ft for IP 7000, 12-ft for IP 6000)
- Resists interference from mobile phones and other wireless devices
- High resolution display and processing power for IP applications
- Integrated Power over Ethernet (PoE) connectivity
- Applications Port for mobile phone and PC connectivity (IP 7000 only)
- Connect two units together for additional microphone pickup and speaker volume (IP 7000 only)
- Integration with Polycom HDX high definition video conferencing systems (IP 7000 only)

Key Benefits of SoundStation IP Conference Phones

- Dramatically clearer conference calls, resulting in more efficient and productive meetings
- Expansive microphone pickup, to ensure every corner of the room is heard
- Advanced IP functionality integrates seamlessly into your network
- Flexibility to add expansion microphones or connect multiple units to meet the needs of any sized room

Customer Value

Polycom IP conference phones boost productivity and efficiency by making meeting clearer and more productive.

About Polycom

Polycom, Inc. (NASDAQ: PLCM) is the global leader in telepresence, video, and voice solutions and a visionary in communications that empower people to connect and collaborate everywhere.

Companies choose Polycom for solutions that allow even geographically dispersed workforces to communicate more effectively and productively over distances. Using Polycom voice, video, and telepresence products and services, people connect and collaborate with one another from their desktops, meeting rooms, class rooms, and mobile settings. Working with Polycom standards-based "green" technology, our customers cut the time and costs associated with gathering the right people in one place to solve problems. Instead, their teams more easily and quickly collaborate "face-to-face" wherever they are, better spending organizational resources, time, and energy addressing your company's business challenges.

Find out how you can collaborate anytime, anyplace with any device in a virtual experience that's as natural as being there. Visit www.polycom.com.

About ShoreTel, Inc.

ShoreTel, Inc., (NASDAQ: SHOR) is a leading provider of Pure IP Unified Communications solutions. ShoreTel enables companies of any size to seamlessly integrate all communications - voice, video, messaging and data - with their business processes. Independent of device or location, ShoreTel's distributed software architecture eliminates the traditional costs, complexity and reliability issues typically associated with other solutions. ShoreTel continues to deliver the highest levels of customer satisfaction, ease of use and manageability while driving down the overall total cost of ownership. ShoreTel is headquartered in Sunnyvale, California, and has regional offices in the United Kingdom, Sydney, Australia and Munich, Germany.
